

ELECTORAL AMENDMENT

---

H.B. 11, 2022.]

**ELECTORAL AMENDMENT BILL, 2022**

---

MEMORANDUM

This Bill seeks to amend certain sections of the Electoral Act [*Chapter 2:13*] (No. 25 of 2004) to complete the alignment of certain provisions of that Act with the new Constitution as amended earlier this year.

*Clause 1*

This clause sets out the Bill's short title.

*Clauses 2 and 3*

This clause amends the definition section (section 4) of the Electoral Act by removing a driver's licence as one of the documents to be used as proof of identity for electoral purposes. Some driver's licences do not reflect citizenry on the face of them. In terms of the Constitution of Zimbabwe, one has to be a citizen in order to qualify as a voter. Accordingly, only valid passport or national identity will be required as proof of identity. This clause also includes a definition of the phrase "disqualifying offence". An offence of this nature is one for which a Member of Parliament is presently under the Constitution (section 129(1)(i)) required to vacate his or her seat. For the sake of consistency, it is proposed that persons who would be disqualified from continuing as MPs for committing such an offence should not also be allowed to stand as candidates for election.

*Clauses 6 and 9*

Guided by the principle that offenders who would be disqualified from continuing to sit in Parliament should not be admitted into Parliament, this clause will require every candidate to make a solemn declaration in a nomination form or by means of an attached affidavit, that he or she is not a convicted of a disqualifying offence (or has received a pardon for such offence).

*Clauses 8 and 10*

While the law is clear on the timeframe regarding withdrawal of candidature for a presidential election, it is however silent with regards to parliamentary and local authority elections. Section 107(1) of the Electoral Act provides that a presidential candidate can withdraw his or her candidature twenty-one (21) days before polling. In order to afford sufficient time for ZEC to make changes to the design of the ballot and to advise the electorate of any changes to the candidature of that election, these clauses seek to amend sections 49 and 126 of the Electoral Act so that they are aligned to section 107(1) of the principal Act.

*Clauses 3, 4, 5, 6 and 11*

The Constitution provides for the 30% female quota in respect of Councillors for local authorities and for there to be one youth elected to the National Assembly by indirect proportional representation for each province. To comply with the Constitution and the SADC Protocol on Gender and Development of 2008, these clauses seek to amend the appropriate sections of the Electoral Act accordingly.

# BILL

To amend the Electoral Act [*Chapter 2:13*]; and to provide for matters connected with or incidental to the foregoing.

ENACTED by the Parliament and the President of Zimbabwe.

5   **1 Short title**

This Act may be cited as the Electoral Amendment Act, 2022.

- 25           (ii) on appeal the candidate’s conviction is set aside or the sentence of imprisonment is reduced to less than six

months or a punishment other than imprisonment is substituted;”;

- (b) by the repeal of the definition of “proof of identity” and the substitution of—

““proof of identity” means a valid Zimbabwe passport, or a notice or identity document issued in terms of section 7 of the National Registration Act [*Chapter 10:17*];”.

### 3 Amendment of section 45B of Cap. 2:13

$$\frac{30 \times \text{Number of wards in local authority concerned}}{100}$$

5

(so that, for example, a local authority divided into nineteen wards will be represented by an additional six woman party list councillors, and a local authority divided into twenty-two wards will be represented by an additional seven woman party list councillors).

10

(8) The formula prescribed in the Eighth Schedule for the election of party-list candidates is calculated on the basis of the total number of valid votes cast for all the candidates in the local authority concerned, excluding any valid votes cast for such candidates—

15

- (a) not belonging to any political party; and
- (b) belonging to any political party which has opted not to field any party-list candidates for the local authority concerned.”.

### 5 Amendment of section 45D of Cap. 2:13

- (b) in subsection (15) by the insertion of the following paragraph after paragraph (d)—

“(d1) he or she has been convicted of a disqualifying offence without being pardoned therefor; or”;

“or

- (d) being a candidate, makes a false declaration in a nomination paper or in an affidavit accompanying such nomination paper that he or she is has not been convicted of a disqualifying offence or has received a pardon therefor;”.

## 8 Amendment of section 49 of Cap. 2:13

- (a) by the repeal of subsections (1) and (2) and the substitution of—

“(1) Subject to this section, a duly nominated candidate for election for a constituency may withdraw, by notice in writing addressed to the Chief Elections Officer, his or her candidature at any time before twenty-one days from the day or first day, as the case may be, on which the poll in an election for the constituency is to be taken.

10

**11 Amendment of Eighth Schedule to Cap. 2:13**

The principal Act is amended by the insertion in the Eighth Schedule of the following Part after Part IV—

15

“PART V

NATIONAL ASSEMBLY YOUTH MEMBERS (EXAMPLE)

[The same principles as are applicable for the election of women party-list candidates to the National Assembly apply to the election of youth members of the National Assembly.]

20

PART VI

LOCAL COUNCIL ELECTIONS (EXAMPLE)

1. In this Part, “participating party” means a political party that has nominated party-list candidates for a local authority. Paragraphs 2 to 8 assume a situation where all the participating parties have submitted nominations for the full number of the women party list seats available for allocation.

25

2. The ward elections officer for the ward in the local authority concerned in which the greatest number of valid votes were cast in the election for that local authority shall be the returning officer for the purpose of this Part:

Provided that in the event of there being in the local authority concerned two or more wards in which the same number of valid votes were cast, which votes are greater than that cast for any other ward, the ward elections officers concerned shall draw lots to determine which of them shall be the returning officer for the purpose of this Part.

30

3. The returning officer of a particular local authority shall, after determining the number of votes which have been cast for each of the candidates of the participating parties in the wards making up the local authority—

35

- (a) ascertain the total number of votes cast for the participating parties; and
- (b) allocate in accordance with paragraph 4 to the participating parties, party-list seats in the local authority council .

40

4. The number of seats to be allocated to women party-list candidates shall be the integer or nearest integer (any fraction of less than half being rounded downwards to the nearest integer and any fraction of a half or more being rounded upwards to the nearest integer) resulting from the application of the following formula to the local authority concerned—

$$\frac{30 \times \text{Number of wards in local authority concerned}}{100}$$

(The Commission shall, as soon as possible after an election proclamation is published, publish a notice in the *Gazette* specifying the number of women party-list seats in each local authority).

5. As soon as possible after the votes in a local authority election are counted, the returning officer shall determine a quota by dividing the total number of votes obtained by those participating parties for that local authority by the number of party-list seats determined in accordance with paragraph 4.

*Example*

If a local authority is divided into 22 wards, the number of party-list seats is seven (7).

If the number of valid votes cast for all participating parties is 8 954, the quota (rounding down or up to the nearest integer) is 1 279.

6. The returning officer shall determine the number of seats to be allocated to each participating party in two stages as follows—

- (a) in the first stage, each political party is allocated a seat for each number of votes that constitute the quota;
- (b) in the second stage, if after the allocation determined in terms of paragraph (a), the number of seats allocated to the participating parties is—
  - (i) less than the number of seats being contested by one seat, allocate that seat to the participating party with the greatest number of unallocated votes;
  - (ii) less than the number of seats being contested by two or more seats, allocate the seats to an equal number of participating parties determined in the order of the party having the greatest number of unallocated votes.

7. To determine the allocation of seats in local authority elections, the returning officer first establishes the parties' quotients in accordance with paragraph 5. He or she will have a table that looks like this [assuming that there are five parties contesting the local authority election and that they get the number of votes set out in the second column of the table]:

ELECTORAL AMENDMENT

<i>Parties</i>	<i>Number of votes</i>	<i>Quotients (votes divided by quota)</i>	<i>Seats allocated in 1st stage</i>	<i>Votes remaining</i>	<i>Seats allocated in the 2nd stage</i>
Party A	4 103	3,208	3	266	0
Party B	2 591	2,026	2	33	0
				<i>Unallocated votes</i>	
Party C	1 118	0,874	0	1 118	1
Party D	998	0,780	0	998	1
Party E	144	0,113	0	144	0
<b>Totals:</b>	8 954		5		2
<b>Total seats allocated</b>					7

**Quota:** 1 279 [i.e. the total number of votes divided by 7, which is the number of party-list seats being contested].

8. Next, if after the allocation of the seats from the division of the votes cast by the quota, less than six seats have been allocated, the returning officer will allocate the remaining seats to the parties with the greatest number of unallocated votes, as shown in the last column of the table.

9. If any political party—

- (a) fails to nominate any women for the party-list seats available for allocation in a particular local authority, all valid votes cast for it will not count towards determining the quota and its votes will not appear in the fifth column of the table below;
- (b) fails to nominate the full complement of women matching the number of the party-list seats available for allocation in a particular local authority, a portion of the valid votes cast for it will be discounted in determining the quota in accordance with the following formula:

$$\frac{A}{B} \times C$$

Where—

A = the number party list seats that the political party concerned failed to make nominations for; and

B = the number of the party-list seats available for allocation in a particular local authority; and

C = the number of valid votes cast for the political party concerned in the local authority election.

*Example 1*

If in the table above Party A submitted the full list of nominees, Party D submitted no nominees, and Parties B, C and E submitted lists with 3, 6 and 1 nominees respectively, the formula will be worked out as follows:

$$\frac{4}{7} \times 2\,591 = 1\,481 \text{ votes to be discounted (Party B)}$$

ELECTORAL AMENDMENT

---

$$\frac{1}{7} \times 998 = 119 \text{ votes to be discounted (Party C)}$$

$$\frac{6}{7} \times 144 = 130 \text{ votes to be discounted (Party E)}$$

If the number of valid votes cast for all participating parties is 8 954, minus 1 730 (7 224 valid votes remaining), minus Part D's 998 votes (6 226 valid votes remaining), the quota (rounding down or up to the nearest integer) is 889.

7. To determine in this scenario the allocation of seats in local authority elections, the returning officer first establishes the parties' quotients in accordance with paragraph 5. He or she will have a table that looks like this [assuming that there are five parties contesting the local authority election and that they get the number of votes set out in the second column of the table]:

<i>Parties</i>	<i>Number of votes</i>	<i>Quotients (votes divided by quota)</i>	<i>Seats allocated in 1st stage</i>	<i>Votes remaining</i>	<i>Seats allocated in the 2nd stage</i>
Party A	4 103	4,615	5	0	0
Party B	2 591	2,914	2 (nominally, it is entitled to 3 seats, but 5 having already been allocated, it gets only 2 seats out of the 3 for which it made nominations)	0	0
				<i>Unallocated votes</i>	
Party C	1 118	1,257	0 (nominally, it is entitled to 1 seat, but all 7 seats having already been allocated, it gets no seats)	0	0
Party D	998	0,780	0 (as in entry above)	0	0
Party E	144	0,620	0	0	0
<b>Totals:</b>	8 954		7		0
<b>Total seats allocated</b>					7

**Quota:** 889 [i.e. the total number of non-discounted votes divided by 7, which is the number of party-list seats being contested]

*Example 2*

If in the table above Party A submitted the full list of nominees, Party B submitted no nominees, and Parties C, D and E submitted lists with only 3, 6 and 1 nominees respectively, the formula will be worked out as follows:

ELECTORAL AMENDMENT

---

$$\frac{4}{7} \times 1\,118 = 671 \text{ votes to be discounted (Party C)}$$

$$\frac{1}{7} \times 998 = 100 \text{ votes to be discounted (Party D)}$$

$$\frac{6}{7} \times 144 = 130 \text{ votes to be discounted (Party E)}$$

If the number of valid votes cast for all participating parties is 8 954, minus 901 (8 053 valid votes remaining), minus Part B's 2 591 votes (5 462 valid votes remaining), the quota (rounding down or up to the nearest integer) is 780.

7. To determine in this scenario the allocation of seats in local authority elections, the returning officer first establishes the parties' quotients in accordance with paragraph 5. He or she will have a table that looks like this [assuming that there are five parties contesting the local authority election and that they get the number of votes set out in the second column of the table]:

<i>Parties</i>	<i>Number of votes</i>	<i>Quotient (votes divided by quota)</i>	<i>Seats allocated in 1st stage</i>	<i>Votes remaining</i>	<i>Seats allocated in the 2nd stage</i>
Party A	4 103	5,260	5	203	0
Party B	2 591	3,322	0 (not entitled to any seats)	0	0
				<i>Unallocated votes</i>	
Party C	1 118	1,433	1	338	0
Party D	998	1,280	1	218	0
Party E	144	0,620	0	0	0
<b>Totals:</b>	8 954		7		0
<b>Total seats allocated</b>					7

**Quota:** 780 [i.e. the total number of non-discounted votes divided by 7, which is the number of party-list seats being contested]
